Terrybear

Terrybear Urns® designs beautiful and affordable urns that funeral industry professionals and families have come to know and appreciate. Each urn is individually handled; there is no mass production, meaning each urn is unique.

Terrybear brass urns are crafted by hand using a sandcasting process that is hundreds of years old. Depending on the design, an urn may go through as many as seven processes before inspection and packaging.

Each cloisonné urn, made with copper and enamel is also crafted by hand using a comprehensive and sophisticated process. For the full cloisonné range see pages 5-6.

Cloisonné (copper/enamel)

Each urn is crafted by hand using a comprehensive and sophisticated process involving hammering of copper pieces to form the shapes. A large cloisonné urn can take up to 30 hours to complete.

Copper filigree is used to form delicate floral patterns and enamel is used to fill and develop rich shades of colour.

Cloisonné urns are gilded in gold to add elegance, and several high temperature heat processes are involved in creating these beautiful cremation urns.

A Living Tribute

Handmade from natural, biodegradable fibres and embedded with seeds, this ornament will grow flowers as your own living tribute.

Simply soak it in water overnight, then plant it either indoors in a pot, or directly in a warm garden, covered with 0.5cm of fine soil.

Water often until the seeds germinate in approximately 3 weeks. The paper will recycle into the soil as the seeds burst into flowers.

CUDDLE STONES

by Ber van Reden
(ceramic)

approx 6cm wide - will hold a small amount of cremains

Every farewell is the birth of a memory, which can be recalled by something tangible, personal and that can be kept close by.

Each piece is modelled by hand to fit perfectly in your palm. They are highly durable and easy to carry with you, which gives you the possibility to have your loved one accompany you whenever and wherever you would like.

BY BER VAN REDEN (clay)

An elegant collection of ceramic urns, each piece is hand-crafted by skilled Dutch artist Ber van Reden. The crystals in the metallic coating form a unique pattern on each urn. The high-quality clay and intensive firing process ensure that, as long as these are cleaned regularly, they are **suitable to be placed outdoors or in a columbarium**.

FADELESS™ (clay)

There is a Chinese saying:
"Gold has a price.
Jun Yao is priceless."

These porcelain urns are
made by using the ancient
and famous Chinese Jun
Yao production method
from the Song Dynasty
(960 - 1279 AD), a time
when it was declared a
"Royal Treasure".

These urns were designed
to be touched. Caressing
the irregular rims and
bumps on the surface will
add to your experience
of 'feeling' the FADELESS
connection you have with
the loved one lost.

Sustainable and Fair

It is of high importance to us that the products we offer are produced in a fair and sustainable manner.

The timber urns found on this page are made in Vietnam in fair conditions free of involvement with any child labour or exploitation of poor workers.

The timber is sourced from sustainable forest resources in the Darlac province of Vietnam, where eco practices include reforestation and Agri-Forestry projects - where the local population are able to graze animals in the plantation.
